I kept records of my rounds of golf with a software package our son Brad helped me create. A combination of the best scores on each hole from 10 rounds is shown above. It shows one over par as my potential best. Below is the course description in my golf handicap program for the 1969 layout.

Below is the course description in 2020. It seems they changed holes 13, 15, and 17. The white course is 111 yards shorter. The par is the same. The rating (70.8) and slope (127) are a bit higher. Perhaps they added traps, the trees grew, or the greens were modified.
